COUNTY JAIL EMPTY

The first time since statehood that the county jail was this week empty. From this it would be seen that the county is on its feet, and that the officials are doing a good job.

PICKERS SCARCE

The funds raised by the Red Cross seal sale will be used for promoting infant welfare and bettering health conditions in Oklahoma, as well as the direct fight against tuberculosis. Buy Red Cross Seals.

William Randolph Hearst, principal owner of the great and influential string of Hearst publications, has found in Governor Smith of New York a man who does not have to tie to the tail of Hearst's kite. Hearst, "the man most to blame for bringing on the war with Spain," has a great deal coming to him from many different sources, and there are a great many people who will not feel grieved if Governor Smith or someone else brings him to a realization of the fact that he, like the rest of us, is made of the material which returns to dust.

Alfalfa is now quoted at \$37 per ton, and the price was \$32 just one week ago. Where it is practicable to raise this popular crop, it is a profitable one at present prices. Four cuttings can be made in one season and should average easily one and one-half tons to the acre. At \$35 per ton this would make each acre yield hay to the value of \$210.00. Even 40c cotton won't give the same return per acre.
